Shadow CV

NOTE: The idea of the shadow CV is to provide information about one's academic failures because our CVs normally highlight only our successes. While I think this information is very close to presenting all of my failures, there may be some missing rejections given that journal submissions and decisions were done via mail early in my career (although I found many rejection letters in my file cabinet!). Some of my most recent projects are excluded from the list if they have not reached the stage of peer review.
